

1 OCT 1974

MEMORANDUM FOR: D/DCI/IC

SUBJECT : Publication of DCID 1/7

We should like to recommend strongly that DCID 1/7, Control of Dissemination of Intelligence, which was presented to Director Helms for signature in February 1973, be submitted to the DCI for his approval. This directive establishes common procedures to control the dissemination of intelligence and intelligence information to ensure that, while facilitating the interchange of information for intelligence purposes, there will be adequate protection of intelligence sources and methods. It should be noted that the present DCID 1/7, dated 1970, derives authority from Executive Order 10501 which was rescinded in March 1972 by Executive Order 11652. The 1973 version of this DCID, which was coordinated within the USIB prior to its presentation to Mr. Helms, reflects the lessons learned from operating under its predecessor and its publication would be both appropriate and beneficial to the intelligence community.
